

## List of Flex Fuel Vehicles

The following vehicles were tested and reported in the Government Fuel Economy Guide for the years given. The models listed in these reports can use both gasoline and Ethanol Blends up to E85. They vary as to how the designation FFV is listed. This designation may or may not be part of the model number for any given year. You are advised to investigate this further before selecting your purchase.

This list may not be comprehensive. It simply reflects the content of the reports specified. The original reports include the mileage for each model and are available from [www.fueleconomy.gov](http://www.fueleconomy.gov)

Make	Model	2000	2001	2002	2003	2004	2005	2006
